

Hi,

# Amrita Pandey

Visual Communication Design

I am a Visual Communication Design student. I am majorly focused on branding and packaging along with other segments of graphic design. I like to combine and balance my interest in graphic design and technical skills of visual communication into cohesive designs. I follow the design process in a disciplined manner and come up with the most viable solutions. Equipped with conceptualising and presenting skills, I work with and around my principles of punctual, organized and user efficient design.
